The broad adoption of all types of RFID within innovative solutions involves users' natural interaction where the technology is so integrated and transparent that it disappears into the environment. These

innovations point to the fact that the Internet of Things (IoT) are coming to reality.

Here are some possibilities:

1. The Next Revolution in Wireless and Mobility: How RFID and Sensing Is Automating Identification, Data Collection, and Location Systems

2. The Battery-less RFID Imperative in Healthcare: Patient-Centric Applications That Are Changing the Healthcare Landscape
3. Enhancing the Patient Experience with RFID

4. Hospital Inventory Control with UHF RFID: What if Your Goods Could Talk?
5. Race Timing with RFID: How Rosie Ruiz Changed an Industry
6. RFID for Event & Hospitality Management: Creating Interactive and Personalized Customer Experiences
7. RFID-Enabled Smart Displays: the Missing Link Between Online Information and the Real World

8. Automating Order Fulfillment: Back to the Future
9. How RFID Helps the Environment (Part 1) Three Powerful Examples: EV Power Station Billing, Pedal Power, and Recycling
10. How RFID Helps the Environment (Part 2): Encouraging Healthy, Green Modes of Transportation with RFID
11. How RFID Helps the Environment (Part 3): RFID for Recycling Incentive Programs, Waste Hauling Automation & Smart Packing
12. RFID – The New Future of Retail: Everything Old is New Again
13. Specialty Retail Inventory Management with RFID: From Diamond Dealers to Pawn Shops, Allowing Small Retailers to Compete with Big Box Stores

14. RFID Enabled Smart Shelves: Out of Stock? I'm Out of Here!
15. RFID Takes on Container Fraud: Horticulture Partnership Takes a Giant Step for its Industry
16. Designer RFID: Enhancing the Shopping Experience while Boosting the Bottom Line
17. Improving Farming with RFID: Making Hay
18. Construction Management with RFID: Tool Tracking, Heavy Equipment Management, and Next Generation 4-Dimensional Building Information Modeling
19. Process Manufacturing with RFID: WIP it Good, Vailant Groups Uses RFID for Automation within One-man Boiler Manufacturing Process

- 20. RFID for Document Management: Giving Valuable Documents a Digital Identity

- 21. The House Bets on RFID: New Meaning to “Eye in the Sky”
- 22. E is for Agriculture: RFID Enables Sustainable Forest Management, Accurate Apricot Harvesting, and Food Safety
- 23. RFID and Social Networks: Brings the Digital “Like” to the Physical World

- 24. The Appliance Approach to RFID: Combining Read Points and Auditing for Asset Tracking
- 25. Oncology Solution Uses RFID to Improve Patient Experience: It Takes More than Courage to Beat Cancer
- 26. RFID and the Beverage Marketplace (Part 1): Thank You Sir, May I have another?
- 27. RFID and the Beverage Market (Part 2): RFID for Wine Production and Anti-Counterfeiting
- 28. RFID and the Beverage Market (Part 3): Beverage Dispensing, Managing the Perfect Pour

- 29. RFID and the Beverage Market (Part 4): Combating Underage Drinking and Improving the Bottom Line with Patron ID and Point of Sale Wristbands
- 30. RFID and the Beverage Market (Part 5): Serving Up Soft Drinks, Freestyle
- 31. Zebra Earns its RFID Stripes Again: Low Cost, Item-Level Tagging for Package Verification, Work in Process, Product Authentication, and More
- 32. RFID Helps Deaf Children Learn Sign Language: Computer Program and RFID-Enabled Toys Designed to Help Preschoolers Learn Faster
- 33. Planes, Trains, Automobiles & RFID: Transportation manufacturing industry relies more and more on RFID
- 34. Mission Accomplished: RFID Lends Precision to Fighter Jet Refueling

- 35. RFID on School Buses: Schools Out, Do you Know Where Your Child Is?
- 36. How to Share Your Car with a Stranger: Relay Rides Provides Access to Your Neighbor’s Car with RFID
- 37. RFID Keeps Its Cool: Temperature tracking Real-Time for Sensitive Shipments

- 38. RFID for Automobile Protection: From Ford to Fahrverneugen, RFID Expands the Opportunity Streamline Production and Lower Manufacturing Costs
- 39. RFID for Border Security: U.S. Customs and Border Protection Simplify Passage for Pre-Approved Travelers

- 40. Check-it-out for Library: Media Tracking Significant Growth in RFID for Library Operations Reported
- 41. Cleaning Up Hazardous Materials: Manhattan Project Site Uses RFID for Waste Management
- 42. DC-Area Software Firm Partners with National Industries for the Blind: RFID Technology Aids People Who Are Blind in the Workplace
- 43. Live From Fargo: RFID for Real Time Visibility in Healthcare
- 44. RFID Predictions: Embedded Intelligence Drives Epic Innovation
- 45. Smart Buildings: Passive UHF RFID and the Smart Building Nervous System
- 46. Innovative Applications and RFID Predictions for the Future
- 47. RFID for Airport Operations: Can RFID Help Make the Skies More Friendly?
- 48. RFID Helps Estee Lauder Innovate: Interactive Kiosks Provide Unique User Experience and New Level of Business Intelligence
- 49. Shredding it with Sensors: Nokia and Burton Boars Combine the Misty Flip with Mobile Apps

- 50. Don't Lose Your Taser: Weapons Tracking and Management with RFID
- 51. Traffic Management with RFID: You Can't Get There From Here, Can you?
- 52. Automating Point of Sale Process with RFID: An End to the Supermarket Checkout Line
- 53. Urban Planning with Building Blocks and RFID Paint Brushes: Next-Generation Building & Cityscape Modeling
- 54. RFID Puts Las Vegas Under Lock & Key: Taking Luxury Guest Rooms to the Next Level
- 55. RFID Let's Cars Park Themselves: The Next Gen Parking Garage
- 56. Cactus Chips: RFID Helps Protect a Desert Symbol
- 57. Smart Ball: RFID Helps Deliver the Fan Experience of the Future
- 58. Milking It with RFID: Robotic Milking Systems to Increase Production and Ensure Quality
- 59. RFID Gives New Meaning to Train Spotting: Single View of Trains Improve Railway Safety
- 60. Music Branding with RFID: RFID to Match the Mood of Clothing with Music

- 61. There's Something in the Air: RFID Detects Airborne Toxins
- 62. Cup o' Joe to Go: RFID and Coffee Drinkers Unite to Cut Waste and Time

- 63. RFID for Disaster Management: Auto ID Technologies Help Deliver Supplies and Locate People During 72 Hour 'Golden' Rescue Period
- 64. Are RFID License Plates Coming Down the Road: Or Will Google Cars Solve the World's Traffic Problems?
- 65. The New Junkyard Dog: RFID Helps Sniff Out Hiding Vehicles in Salvage Yards
- 66. Don't be a Hothead: RFID-Enabled Helmet Designed to Reduce Cases of Heatstroke
- 67. Are RFID Tags on the Ropes? RFID Used to Improve Mussel Cultivation
- 68. RFID Hits Center Stage: Following Opera Singers to Capture the Experience for the Audience
- 69. ThingMagic Continues Lead Position as

Developer of RFID Technology

- 70. RFID and Mud Motors: Fit for Natural Resource Exploration
- 71. Automated Video Stores: New Way to Rent Movies
- 72. Ghost in the Machine: RFID and the 'Magic' of Nearness

- 73. RFID Replaces Ouija Boards, Witchcraft, and Séances: Lets the Dead Speak from Beyond the Grave
- 74. Billions of Identities: Use of RFID-enabled National eID Cards and ePassports is Growing

- 75. RFID Gets Waterproofed: Helps Control Crowds at the Pool
- 76. Man Down Monitoring: RFID Provides a Safety Net for Workers in Hazardous Conditions
- 77. RFID Put Behind Bars: Helps Keep the Peace and Cut Costs in Prisons
- 78. RFID for Wander Prevention: Providing Added Protection for Elder Care
- 79. RFID Has its Finger on the Pulse: Tracking Body Movements for a Picture of Health
- 80. India's National ID Card Program: RFID and Biometrics to Deliver Access to Social Services
- 81. RFID Lets Theme Parks Be Fun for All: Takes Care of Special Needs Guests and Children
- 82. Tons of Pig Iron + 2300°C Blasts + Big Trucks: Are U-Safe? RFID Enhances Safety for Steel Manufacturing Plant
- 83. RFID Delivers: Keeps Your Bundle of Joy Safe and Sound
- 84. RFID for Student Tracking: Let Us Know What Grade You Think it Deserves
- 85. RFID Left Out In The Cold: Solution Provides Tracking, Temperature Monitoring & Scheduling for Iditarod Participants
- 86. Can You See Me Now? RFID Addresses Danger of the 'Right Turn' for Urban Bicyclists
- 87. Rings, Spiders, Horsetails, Fish and RFID: Auto-ID Technology Used to Secure Nation's Largest July 4th Celebration
- 88. RFID and the Miracle of Life: Delivers Insight into Fertility Cycles and Prevents Mistakes at IVF Labs

- 89. RFID and the Bank Branch of the Future: Enables Personalized Banking Services and Process Automation

90. RFID Gives Surgeons Second Set of Eyes: Helps Locate Breast Tumors During Surgery with Precision, Without Risk of Infection
91. IT Asset Tracking with RFID is not Rocket Science: NASA Ditches Paper & Pen in Favor to Locate Valuable Equipment
92. RFID for High-Value, Critical-Dose Medication Inventory: Are You Prepared For The Future?
93. Personal Robotics Advance with UHF RFID: The Future is Closer Than We Think
94. Messages on the Move: RFID Helps Cheer Marathoners Along New York City Route
95. Find It, Play It with RFID: Will This Golf Ball Location System be A Holiday Hit?
96. RFID for Counting Bees: Beekeepers, Farmers, Buyers and Consumers Benefit from Hive Monitoring
97. The Next Big Step Toward a Multi-Scale Wireless World: Will Consumer Use of NFC Drive Widespread RFID Adoption?
98. RFID and The CSI Effect: Efficiently Tracking Evidence from Collection to Storage
99. RFID Migrates Upstream: Could This Mean the End of Human-Injected Hormones and Antibiotics in our Food?
100. 100 OF 100 Uses of RFID: Use Your Imagination and Just Add RFID.
